No Friction Whatever.

So far us I know," said Sheriff wells, "there is no friction between long ago, when a man best a gold watch and chain. We got a chie to the identity of the thief, and Deputy Ben Harris bested him in the Klondike saloon, captured him and recovered the property, though he tried to get rid of it when arrested. At the triad the defense maintained that, the defendant owned the watch, and it was our business to identify it.

The owner had previously

"Now, they are bodding a warrant for this colored woman, Mrs. Lurkins, who tried to mutrier a man, and whose case rightfully belongs to us, if we had the warrant we would get the woman. We know where she was two days ago, and presume she is still there. The police boyser's found her, but they hold the

Another Denial.

The watch spisode is stremously denied by the accused.

"If we told the sheriff it was lost, such was the case," said Chier Hitten.

"As I say, we have assisted them, and would have no object in hiding testimon; from them. I hope they would not do it with us. I do not know to what case the sheriff refers, and as a record is kept of everything reported to the desk sergeant, it would be impossible for the number to be destroyed. Furthermore, I have confidence enough in the men of my department or know that none of them would do such a thing."

The auxiliary building at Springville with the pipe line to Lehl and the necessarry machinery will cost the company \$125.

The auxiliary building together with the pipe line to Lehl and the necessarry machinery will cost the company \$125.

Saving On Iron.

Mr. Cutler was gaked what these beliers cost. He smiled and shook his head. They were bought last March," he said, "and did not cost as much as they would cost now."

In this connection the information comes from a reliable source that the company saved \$12,000 on the single item of the iron pine that connects Springville and Lehl. This amount represents the raise in price since last March, when the purchase was made it is fair to assume that as much more was saved on structural iron, botters and machinery.

Big Output This Year.

Speaking of the beet crop, Mr. Cutler will begin in about two weeks, are in beets in the Lehl district

There are in beets in the Lehi district this year about 4.00 acres, and if the yield is no better than it was last year this would mean \$5.00 tons of beets. We expect the yield to be very much better than last year.

"This would mean," continued Mr. Cutler, "an output of sugar this year of 12.000.000 pounds of sugar taking last year s yield as a basis for calculation."

At the present price of sugar, this would mean a gross income of \$600.000 to the company from this year's crop.

Salt Lake County Plant.

The Philippine Islands at Saltair. The management of Saltair begs to mnounce that they have made arrange-nents with Mr. Douglas Young of located somewhere between and the Jordan. It will cost oringville, and we expect to have it in ng order next year.

understood that, in connection Springville plant, the sum

demonstrated yet that sugar beets could be successfully raised in the Sameete valley in large quantities. There was great difference, he said, in raising small patches and raising them in sufficient quantities to make the enterprise

that a much larger percentage of sugar can be obtained. He thinks that nothing like the maximum yield has yet been reached, and Secretary Wilson, with whom he spent a day last week in Orden, is of the same opinion. Mr. Cutter closed the interview by predicting great things for the future of the beet sugar industry of Utah. There is no other place in the United States where it is such a sure thing. As Mr. Cutter closed the interview by predicting great things for the future of the beet sugar industry of Utah. There is no other place in the United States where it is such a sure thing. As Mr. Cutter has devoted all his time for the past nine years to the study of the subject and has been largely instrumental in building up the industry here, his opinion should have much weight. He is now preparing to go east to purchase machineral pipe and structural iron for the new buildings of the expects all such material to be stell higher in price and year than it is now.
